that doesn't tire***

**3M™ Dual Lock™ Reclosable Fasteners**

*5 times more holding power  
Fast & easy assembly*

## For faster and multiple openings and closings

Zippers, screws, bolts, snaps, hooks and other traditional reclosable fasteners open and close. But if you want to imagine more and achieve more in product design and assembly, consider 3M™ Reclosable Fasteners for multiple closings or attachments and easy openings or removals.

Fast, easy assembly –  
Adhesive-backed versions apply as quickly and easily as tape to many plastics, bare or painted metal, sealed wood, glass and more.

When the two sides are pressed together, hundreds of mushroom-shaped stems interlock. “Snap” announces that the fastener is engaged. Compared to hook and loop, tensile strength is greater with 5x more holding power. Choose adhesive-backed for a wide a variety of surfaces or plain-backed for sewing, stapling or ultrasonic welding into place.

3M™ Dual Lock™ Low Profile Reclosable Fasteners are available when you want features similar to standard 3M™ Dual Lock™ Reclosable Fasteners, but a thinner version. Select closure strengths, shapes, thicknesses, opaque or transparent and plain or pressure sensitive adhesive backings. Adhesives are available with a selection of characteristics such as flame resistance, low or high temperature resistance, bonding to low surface energy plastics, plasticizer resistance and more.

**IMPORTANT NOTICE:** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application. Please remember that many factors can affect the use and performance of a 3M ITSD product in a particular application. The materials to be used with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a 3M ITSD product. Given the variety of factors that can affect the use of a 3M ITSD product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M ITSD product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

**LIMITED WARRANTY:** The sole obligation of the manufacturer, distributor, and/or seller of this product shall be the replacement of 3M Carpet Tape product, if notified of the defect within six months of the date of purchase. Such quantity of the product deemed defective shall be replaced and there shall be no liability of injury, loss, or damages, either direct or consequential, arising out of the use or inability to use the product. The company disclaims all oral warranties of any kind. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

**LIMITATION OF REMEDIES AND LIABILITY:** If the 3M product is proved to be defective, THE EXCLUSIVE REMEDY, AT 3M'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OR TO REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT. 3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including contract, negligence, warranty, or strict liability.
